5 Reasons You Need a Will

and how to complete yours
easily and affordably.

A Will is a legal document that allows you to decide what happens to **your assets and treasured possessions** and who will care for your children (or pets!) if something happens to you.

Why do you need a Will? Here are 5 crucial reasons:

1. Make your wishes known.

Without a Will, state laws will divide your estate without your input.

2. Minimize disputes.

A Will helps clarify your wishes, reducing the potential for family conflicts over your assets.

3. Provide for your children.

If something happens to you, you decide who will care for your minor children.

4. Provide clarity.

Distribute your assets to family, charities, or other meaningful causes according to your wishes.

5. Peace of mind.

People with Wills are 40% more likely to feel peaceful and confident about the future¹.

With Legalshield, creating a Will is easy.

*Join the collective buying power of LegalShield!
Affordable legal protection for you and your business.*
