CITY OF PEARLAND PLANNING DEPARTMENT

The **City of Pearland Planning Department** is responsible for facilitating the development process in the City of Pearland.

The Planning Department knows you will have issues and questions on what you need to do as it relates to construction, land use, and appearance. The Planning Department is willing to meet with property owners, businesses, and other parties to assist you in answering questions, addressing concerns, and informing you of requirements. Some of the information we can readily assist you with are as follows:

- Zoning - Allowable activities on property within the City limits.
- Platting - The proper delineation of boundaries, subdivision of property, future plans, etc.
- Subdividing - The proper separation of property for sale or other reasons.
- Land Use - In addition to zoning, the requirements for setbacks, parking, building lines, landscaping, façade allowances, screening, fencing, etc.
- Variances or Special Exceptions - The need for varying or obtaining a waiver from a City requirement dealing with land use issues.

The Planning Department is the City department that coordinates Pre-Development meetings (a meeting of water, sewer, street, drainage, engineering, traffic, planning, building, and other personnel to assist you in preparing to expand or develop in the City). We suggest you contact the Planning Department to arrange a Pre-Development meeting as soon as you start thinking of expanding or developing – hopefully, a year prior to when you want to have your expansion or development to open.

The Planning Department hosts meetings to the development community, realtors, and anyone interested in planning issues.

The Planning Department is responsible for developing and maintaining short and long range plans for the growth of the City, in order to create and maintain a desirable land use pattern for an enhanced quality of life for our citizens. We want to work with you to ensure that is met.
